**DATE**  
23 Jan 2019

**ABOUT**  
UK Power Networks hosted the Better Networks Forum to showcase their latest technical programme. The aim was to demonstrate the innovative learnings and solutions the programme has delivered so the rest of the energy industry can help develop solutions that will benefit customers.

**HIGHLIGHTS**  
The audience was a wide range people involved in the energy industry including electricity network operators, industry regulator Ofgem, equipment manufacturers, academics, consultants and public bodies. The event took place on the coldest day of the year and attracted more than 100 people!

"With the IET London: Savoy Place everything they're responsible for will be taken care of to a high standard with the minimum of fuss"

**WHY IET LONDON SAVOY PLACE?**  
Savoy Place's great central London location was the prominent reason for choice of venue. Also, UK Power Networks held several successful events at Savoy Place in the past, where they were very impressed with the outstanding service.
