BETTER NETWORKS FORUM HOSTED BY UK POWER NETWORKS

EVENT SPACE	CAPACITY
Maxwell Library	190
Turing Lecture Theatre	175

DATE 23 Jan 2019

ABOUT

UK Power Networks hosted the Better Networks Forum to showcase their latest technical programme. The aim was to demonstrate the innovative learnings and solutions the programme has delivered so the rest of the energy industry can help develop solutions that will benefit customers.

HIGHLIGHTS

The audience was a wide range of people involved in the energy industry including electricity network operators, industry regulator Ofgem, equipment manufacturers, academics, consultants and public bodies.

The event took place on the coldest day of the year and attracted more than 100 people!

WHY IET LONDON SAVOY PLACE?

Savoy Place's great central London location was the prominent reason for choice of venue. Also, UK Power Networks held several successful events at Savoy Place in the past, where they were very impressed with the outstanding service.

"With the IET London: Savoy Place everything they're responsible for will be taken care of to a high standard with the minimum of fuss"
